

CYCLING SCIENCE - TABLE OF CONTENTS

1989 - 1997

Aerodynamics of cycling apparel. Brownlie L.W., Gartshore I. Chapman A., Bannister E.W.	1991 Sept/Dec, p44
Aerodynamics of handlebars & helmets. Kyle C.R.	1989 Dec, p22
Aerodynamics of the rider-bicycle combination. Burns S.P., Sullivan J.P.	1995 Fall, p8
Aero-wheel controversy. Editorial comment.	1995 Summer, p7
Aero-wheel performance. Kyle, C.R.	1995 Spring, p6
All about indexed shifting rear derailleurs. Berto F.J.	1990 Mar, p18
Alternative bicycle transmissions. Kyle C.R.	1991 Sept/Dec, p33
An aluminum alloy handlebar failure. Implications for design and safety. Tardiff G.	1995 Spring, p18
An empirical model for determining the radial force-deflection behavior of off-road bicycle tires. Hull M.L., Wang E.L., Moore D.F.	1996 Spring, p13
An offroad bicycle with adjustable suspension kinematics. Needle S.A., Hull M.L.	1997 Spring, p4
An overview of cycling instrumentation. Sargeant B.	1990 Sept, p13
A new high performance control cable system: design, test and evaluation. Moll K.W.	1995 Fall, p16
Bicycle suspension systems meet Mr. simple dynamics. Olsen J.N.	1992 Fall, p6
Biomechanics of cycling shoes. Sanderson D.J.	1990 Sept, p27
Carbohydrates and Cycling Performance. Coyle E.F.	1989 Dec, p18
Carbohydrate feeding during prolonged cycling to improve performance. Coggan A.R.	1990 Mar, p9
Chain friction, windy hills and other quick calculations. Kyle C.R.	1990 Sept, p23
Circumstances and severity of bicycle injuries I. Snell Memorial Foundation	1997 Spring, p15
Circumstances and severity of bicycle injuries II. Snell Memorial Foundation	1997 Summer, p2
Co-motion's co-pilot. Rutkowski C.	1995 Winter, p14
Company profile: Carbonframes. O'Grady P.	1996 Summer, p17
Company profile: Lightspeed titanium components. O'Grady P.	1996 Winter, p6
Company profile: Ringlé components. Molee K.	1996 Summer, p14
Company profile: White Lightning. O'Grady P.	1997 Spring, p9
Comparative energy consumption of high efficiency vehicles. Brooks A.N.	1989 Dec, p6
Comparative fatigue resistance of methods of joining bicycle frame tubes. Southerland T.J., Hull M.L., Gibeling J.C.	1992 Fall, p26
Comparative fatigue study of steel and aluminum off-road bicycle stems. Moyer F. Wang E.L., Hull M.L.	1995 summer, p10
Composite materials. Rowe T.S.	1996 Fall, p11
Computer software, its role and function in athletic training. Burrell K.P.	1995 Fall, p12
Considerations for data quality and uncertainty in testing of bicycle aerodynamics. Flanagan M.J.	1996 Fall, p7
Control of rider positions on bicycles: proposed solutions at the 1997 UCI technical meeting. Broker J.P., Knapp E., Shafer R.	1997 Summer, p7
Course terrain and bicycle set-up. Howe C.R.	1995 Spring, p.14

Cutting Edge streamlined bicycle. Weaver M.D.	1991 Sept/Dec, p17
Cycling biomechanics: the Olympic program. Broker J.P.	1996 Spring, p18
Cycling knee injuries. Holmes, J.C., Pruitt A.L. Whalen N.J.	1991 June, p11
Cycling technique of elite 40 km time trialists. Coyle E.F.	1991 Sept/Dec, p8
Damage to front forks of bicycles during deceleration. Forester J.	1992 Fall, p14
Daedalus, a human powered aircraft. Nadel E.R.	1991 June, p21
Dehydration myth and carbohydrate replacement during prolonged exercise. Noakes T.	1990 June, p23
Development of shimano pedaling dynamics (SPD). Okajima S.	1990 Sept, p4
Dietary intake of female cyclists during repeated days of racing. Grandjean A.C., Lolkus L.J., Lind R., Schaefer A.E.	1992 Fall, p21
Dupont aerodynamic bicycle wheel. Hopkins M.W., Principe F.S.	1990 Mar, p3
Effect of a cooling and rehydration system on psychophysiological responses during simulated laboratory time trial cycling in the heat. Burke E.R., Barzducas A., Trappe S.	1995 Fall, p6
Effect of cross winds upon time trials. Kyle C.R.	1991 Sept/Dec, p51
Effect of drafting and aerodynamic equipment on energy expenditure during cycling. Hagberg J.M., McCole S.D.	1990 Sept, p19
Effects of mountain bike suspension system on metabolic energy expenditure. Berry M.J., Woodard C.M., Dunn C.J., Edwards D.G., Pittman C.L.	1993 Spring, p8
Elementary techniques for finding bicycle patents. Papadopoulos J.M.	1995 Spring, p10
Energy expenditure during bicycling. Hagberg J.M., McCole S.D.	1990 June, p17
Equations for predicting record human performance in cycling, running and swimming. Van Dorn W.G.	1991 Sept/Dec, p13
Equal time for aluminum: A discussion of "titanium applications for the cycling industry." Klein G.	1995 Summer, p14
Evaluation of six flat prevention products. Bowman R.R., Weiss I.	1991 Sept/Dec, p39
Exertion cramps: a prospective study of biochemical and anthropometric variables in bicycle riders. Williamson S.L., Johnson R.W., Hudkins P.G., Strate S.M.	1993 Spring, p15
Forgings or billet extrusions. Burns G.	1997 Summer, p14
Front wheel drive recumbent bicycles. Stegmann J.	1991 Sept/Dec, p24
Frictional resistance in bicycle wheel bearings. Dahn K., Mai L., Poland J., Jenkins C.	1991 Sept/Dec, p28
Hard facts about bicycle helmets. Swart R.	1989 Dec, p14
HDL-CH increases during ultra-endurance cycling. Langenfeld M.E., Langenfeld K.F., Terbizan D., Thornton D.	1994 Fall, p19
Hillclimbing, the effect of sitting, standing, and toe clips upon uphill racing. Mastropaolo J., McMurrow P.A., Senozan D.S., Navarro S.J., Granado D.B.	1990 June, p20
Huffy Composite Triton. Melton M.	1990 Sept, p8
Injuries in NORBA pro/elite category off-road bicycle competitors. Pfielffer R.P.	1993 Spring, p21
Lance Armstrong's fight with cancer. O'Grady P.	1996 Winter, p9
Montague bicycles that fold. Kabac A.	1996 Fall, p4
Mountain Bike Brakes. Olsen J.N.	1991 Mar, p8
Mountain bike, where to from here. Olsen J.N.	1989 Dec, p10
Moxey suspension. Voves D.R., Wheelley M.R.	1996 Winter, p14

New aero wheel tests. Kyle, C.R.	1991 Mar, p27
New quick release standards. De Long A.F.	1991 Mar, p23
Nutrition for ultra endurance cyclists. Coleman E.	1990 Dec, p26
Objective testing group certifies bicycle helmets. Gleason P.A., O'Gorman R.	1995 Summer, p18
Observed Trials - Newton would have loved it. Olsen J.N.	1990 June, p9
One hour cycling record at sea level and at altitude. Péronnet F., Bouissou P., Perrault H., Ricci J.	1991 Mar, p16
Power dissipated by off-road bicycle suspension systems. Wang M.S., Hull M.L.	1994 Winter, p10
Power output of bicycle trainers. Kyle C.R.	1991 June, p4
Power Post and the biomechanics of seat position. Broker J.B., Burke E.R.	1994 Winter, p14
Physiological effects of aerodynamic handlebars. Johnson, S.C.	1990 Dec, p9
Physiological effects of a tether belt system. Lowe R.C., Coast J.R.	1991 June, p27
Progress on voluntary standards for bicycles in the United States. Hull M.L.	1996 Winter, p11
Quantifying suspension hub stiffness. DeLorenzo M., Wang E.L., Hull M.L.	1994 Fall, p12
Reexamining optimal cyclng cadence. Coast J.R.	1994 Fall, p16
Reflective technology: providing added safety for cyclers. Shusta J.	1997 Spring, p11
Research and development projects for bicycles. Wilson D.G.	1991 June, p16
Review of bicycle material properties. Chinn D., Erickson T.	1997 Summer, p19
Scientific multi-sport training program. Hooker G., Spangler D.	1990 June, p13
Scientific performance testing. Hooker G., Spangler D.	1989 Dec, p2
Scientific training and fitness testing. Hooker G., Spangler D.	1990 Mar, p23
Sociology of bicycle racing. Albert E.	1991 Sept/Dec p3
Soft shell versus hard shell helmets. Swart R.	1990 Dec, p13
Space - the final frontier or is it?, O'Grady P.	1996 Spring, p10
Sports Drinks. Burke E.R.	1990 Mar, p14
The Browning automatic bicycle transmission. Kyle C.R.	1995, Winter, p11
Technique of slick rock riding. Kyle S.D.	1991 Mar, p3
Tests for puncture prevention products. Bowman R.R., Hultquist W.R., Reader T.P.	1994 Winter, p6
Tire-rim failure. Stegmann, J.	1990 June, p30
Titanium applications in the cycling industry. Constantino T., Vandermark R.	1994 Fall, p6
Tour de France: food intake and energy expenditure during extreme sustained exercise. Saris W.	1990 Dec, p17
Tour de France simulation: eating, drinking and cycling. Brouns F.	1990 Dec, p22
Triathlon, USOC laboratory studies used to optimize training programs. Van Handel P.J.	1990 Dec, p5
Universidade de Sao Paulo's "Kangaroo" takes first prize in Owen Corning's challenge to design a World bike. Rowe S.T.	1996 Fall, 18
Wind tunnel tests of aero bicycles. Kyle C.R.	1991 Sept/Dec, p57
Wind tunnel tests of bicycle wheels and helmets. Kyle C.R.	1990 Mar, p27
What determines optimal cadence. Marsh A.P.	1996 Summer, p9
Why your bicycle hasn't changed for 106 years. Schmitz A.	1990 June, p3
